Thailand's most relaxed way to fill your life with nature, excitement and pure pleasure. Cruise the emerald green waters of Andaman Sea on King Cruiser Catamaran.

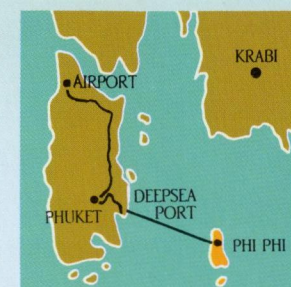

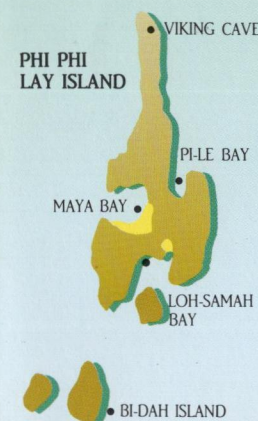

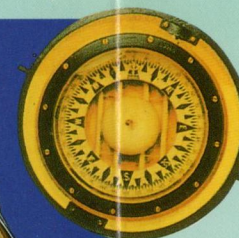

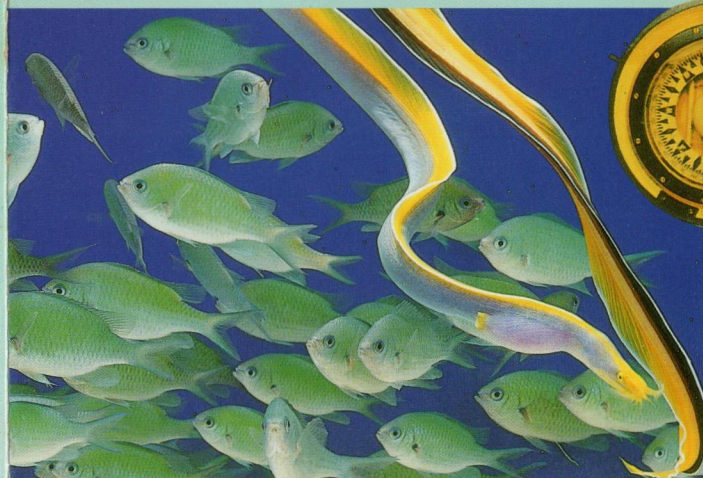

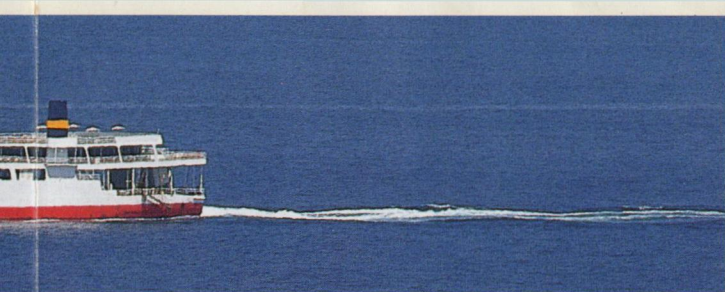

Phi Phi Islands are situated between Phuket and Krabi, some 45 kms from either place and mainly consists of two lovely islands.

Phi Phi Don, the larger one, is inhabited by local villagers and is adorned with fine sandy beaches, crystal clear water, fantastic landscapes and extraordinary marine life. An ideal place for excellent swimming,

snorkeling, scuba diving, sunbathing and relaxation. The bungalow accommodation offers a peaceful and tranquil atmosphere or an escape from the hustle and bustle of cities. The smaller, Phi Phi Le offers even more dramatic scenery with a number of small secret coves, rocky cliffs and caves. It is also surrounded by colourful waters with high visibility to enjoy unbelievable skin and scuba diving. Its most celebrated attraction is an immense cave, called "Viking Cave" festooned with theatrical stalactites and stalagmites, where bird nests are collected. After processing, these nests are transformed into a valuable food product known as "Rang Nok" which is believed to make good health. There are also ancient drawings of sailing crafts of unknown origin. The Phi Phi Islands are famed as some of the best dive sites in Thailand.
